“About us,,

Kanishk Aluminium India Private Limited (KAIPL) is located in the second largest city which is also known as Blue city of Rajasthan i.e. JODHPUR. KAIPL is the brainchild of Mr. Ashish Agarwal, who wished to breathe new life into an Aluminium industry which is evolved newest of all the industries the “Metal of Tomorrow” where innovation meets versatility and strength.

Ashish’s vision was to build a brand-KANISHK which stands for distinctive quality, customer satisfaction, durability and precision engineering. The first seed of his dream sprouted as an Aluminium Trading Company in the name of P.N Agarwal & Co. in 1984 which was established by his father Mr. Parmanand Agarwal. With the realization of the scope and potential of the Aluminium industry, we expanded our business to Aluminium Grill fabrication in 2005. Since then, we have been continuously expanding our facilities to include anodizing, powder coating, sublimation, machining, and fabrication.

In 2008, we set up our own anodizing and powder coating facility to add aesthetic value and prolong the life of our Aluminium products. In 2013, we further expanded our facilities to include a full-fledged fabrication plant that can supply Aluminium windows and doors, as well as Aluminium ladders.

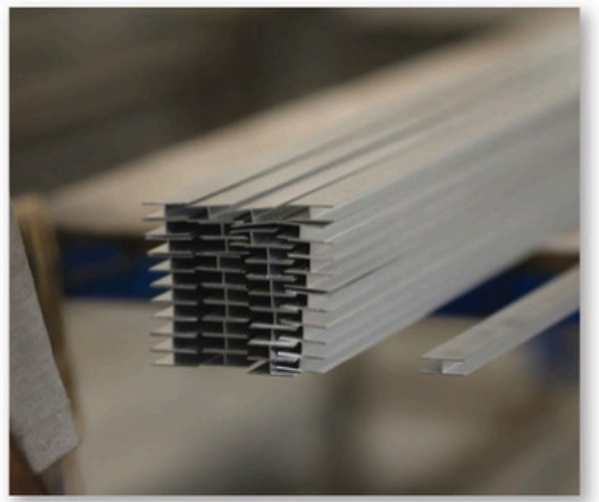

Our knowledge and expertise in the industry then led us to aim towards creating our own extrusion plant. Our dream became a reality in 2018, when we established Kanishk Aluminium Extrusion Pvt. Ltd., later become Kanishk Aluminium India Pvt. Ltd., we are committed to delivering high-quality Aluminium extrusion profiles and products that meet the specific needs of our customers. With our own raw material melting and casting setup, 2 extrusion presses, extrusion die shop, and in-house anodizing, powder coating, sublimation, machining, and fabrication facilities, KAIPL products conform to industry standards and are of international quality. KAIPL uses green methodologies, high quality raw materials and is well equipped with imported automated technology machines and latest equipment’s to provide world class quality products to handle any project, big or small globally. We can work with 6000 & 7000 Series alloys in T4, T5 and T6 conditions as per customers specific requirements. Due to our consistent hard work and dedication to customer satisfaction, Ashish’s (brand-KANISHK) has become synonymous in PAN India

Aluminium business also having numerous shares of export market in USA, UK & Nepal Aluminium business.

At Kanishk Aluminium India PVT LTD, we strive for excellence in everything we do. Our team of experts, with years of experience in the industry, is always ready to assist you with any queries or requirements. We are a company that believes in catering to our customers’ unique needs, and we are well-equipped to develop and supply customized products.

We welcome your valuable suggestions and guidance to improve the quality of our products and services. Join us on our journey to create a sustainable and innovative future in the Aluminium industry.

OUR FACTORY

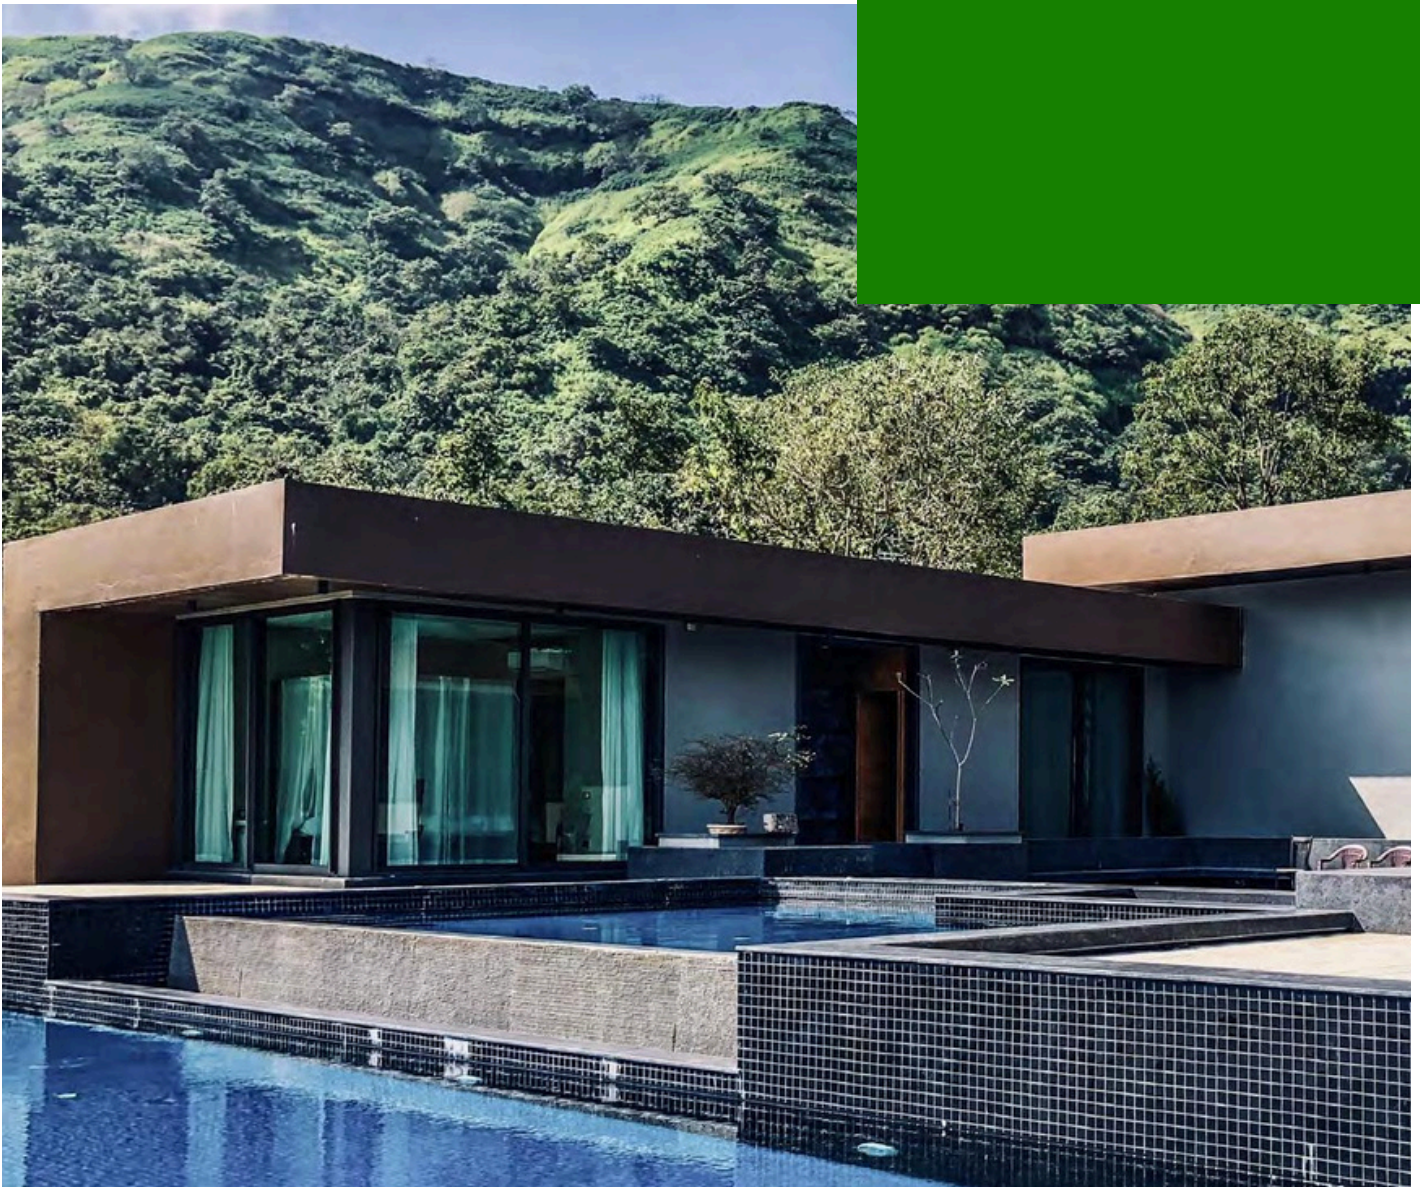

Introduction

Kanishk produces highly precise aluminium extrusions to meet the rigorous needs of quality-conscious companies. Kanishk was established in 2013 in Jodhpur (Rajasthan) INDIA by Mr. Ashish Agarwal son of Mr. Parmanand Agarwal. Kanishk Aluminium India Pvt. Ltd. has carved a niche for itself as a dominant player in the manufacturing of extrusion profiles for a host of industries - architectural, industrial, furniture, transport, electrical, lighting, solar, hardware etc. Sprawling over 110000 sq feet, the plant is professionally managed by a team of 200 plus employees. It is outfitted with state of the art machinery; follows well mapped manufacturing processes and the latest technical know-how to produce extrusions of unmatched quality. Kanishk's infrastructure includes in-house foundry for billet casting, die shop, ; two state-of-the-art extrusion presses backed with a testing lab to ensure complete customer satisfaction with the delivery of the quality product. At Kanishk we also offer a host of value-added services to our customers, such as Anodizing, Powder Coating and Machining. Customer delight is not just a declaration but a way of life at Kanishk.

Features

Sound resistant interlocks with double sealing
 Kanishk Aluminium has high levels of sound insulation. The gaskets ensure shutter banging noise is suppressed and wool pile sealing makes it dust/wind resistant.

Designed for torrential weather conditions
 With extra strengthening and reinforced handle and interlock sections.

Sturdy shutter joinery with plastic inserts
 Butt overlapping joinery and twin screw provides excellent strength. Anti-rattle plastic inserts leave no gaps and voids.

Sturdy and leak-proof frame joinery
Frame Inserts eliminates any possibility of gaps and water to seep inside. It's a first developed only by MyWindow.

Solid aluminium extruded track
 The solid Aluminium extruded track makes sure that the shutter weight is held easily without any sagging after usage, at the same time removing the possibility of any dents.

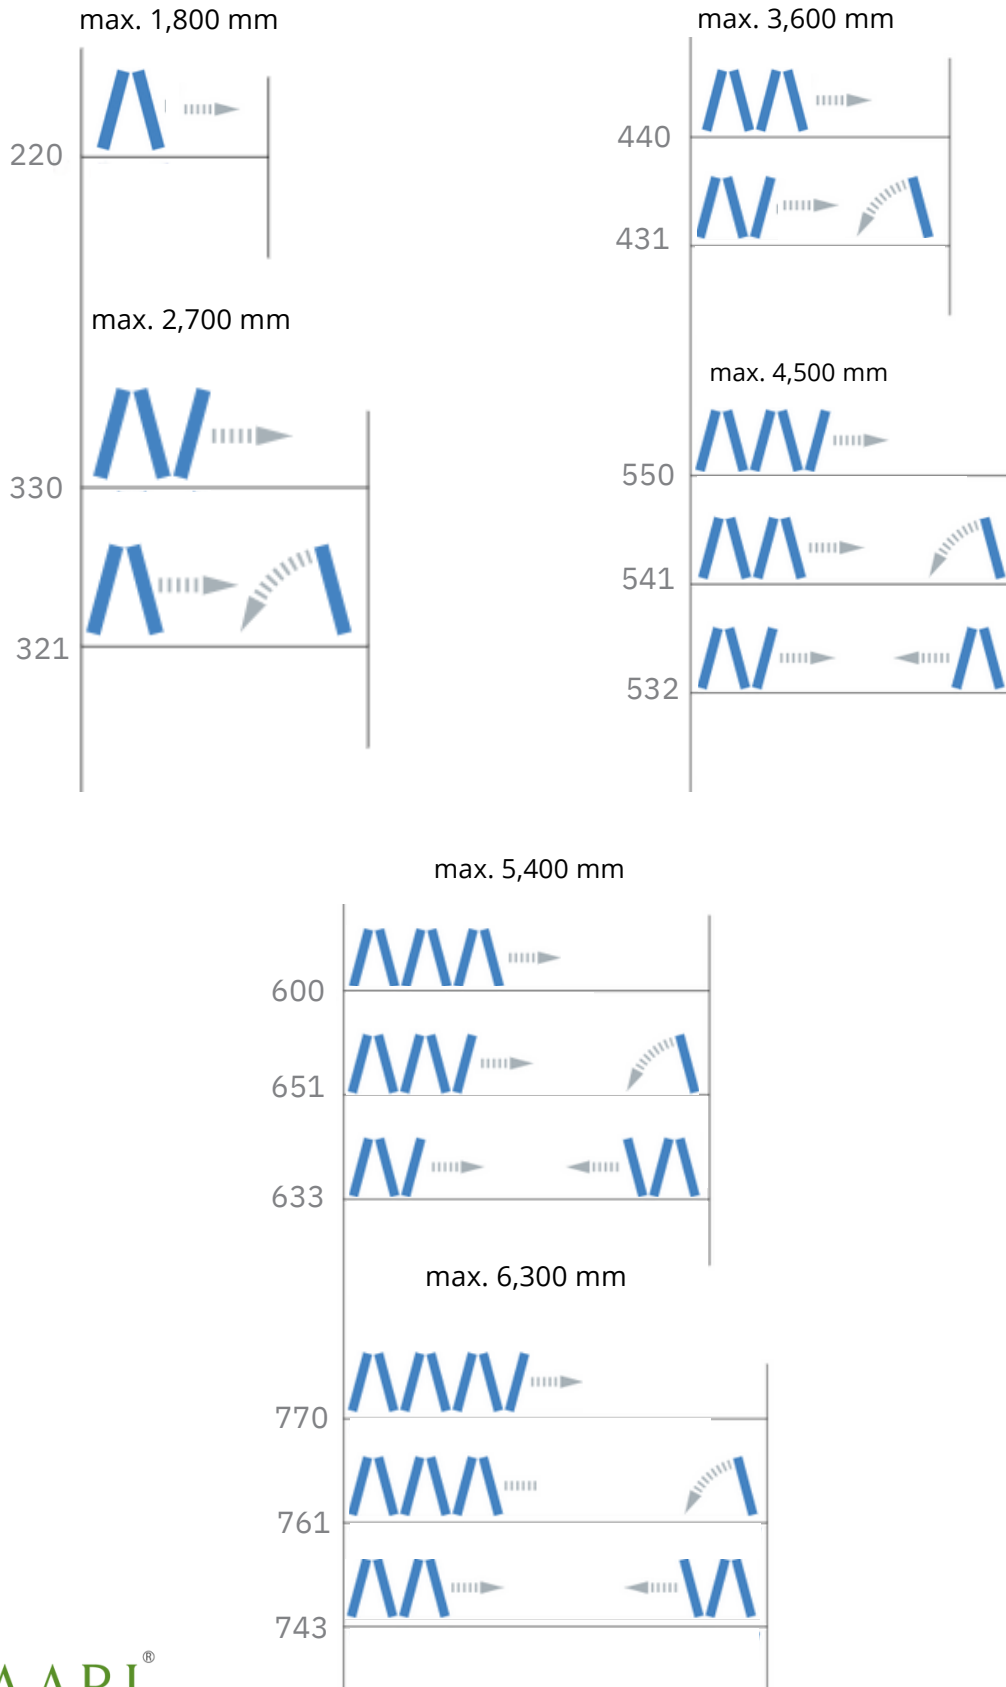

Gated Drainage
 This specially designed water cap acts as one way valve allowing water to drain out and block wind entering the system.
